

Service Technician - HVAC

If you're energetic, ambitious and enjoy working on home heating equipment, we want to talk with you. We're hiring a licensed service technician to work on residential heating equipment.

Specific responsibilities:

- Install and repair oil-fired furnaces, boilers and space heaters
- Install and repair cold-climate heat pumps
- Annual tune-ups for oil-fired furnaces and boilers
- Install natural gas heating equipment
- Identify and recommend replacement for inefficient or unsafe heating systems

Qualifications:

- NORA Silver Certificate, Gold preferred
- Natural gas certification, preferred but not required
- EPA RSES Refrigerant Usage Certification, Type I & II, preferred but not required
- At least two years' experience

In business since 2001, the Energy Co-op delivers heating oil, kerosene and wood pellets to 2,500 members and customers, primarily in northwestern Vermont. We also maintain, replace and repair a wide range of home heating systems - including heat pumps - and conduct energy audits. The Co-op is an equal opportunity employer, offers highly competitive wages and an interesting and supportive work place. The Co-op's exceptional benefits include: profit sharing, a \$7,200 annual benefit allowance, employer matched retirement plans, health and dental insurance, paid holidays and vacations, fuel deliveries and heating systems at cost, and more. Ask about our signing bonus and commitment to training and education.
