

8 Hours of Plumbing Specialist Continuing Education for VT PS-1 & PS-2 License Holders
September 26, 2018– 8:00 am – 4:00 pm - VFDA - 963 Paine Turnpike North - Berlin, VT
4 NORA CEUs and 2 VT Oilheat CEUS VTF-15

This Vermont Fuel Education Center (VFEC) course is for Vermont Type S Plumbing License holders needing their 8 hours of Vermont-approved continuing education credits. This course is continuing education for Type S Hydronics license holders ONLY! Not approved for the Water Treatment License.

TOPICS:

Service Calls: Use of test equipment and service manuals to diagnose and repair faulty equipment

Vermont State Plumbing Code: How it pertains to oil-heat service for (1) connecting domestic water to heating equipment, backflow prevention and why (2) Connecting domestic hot water to the building through various conduits

The Permitting Process: Why it's necessary to file a permit, whose responsibility is the permit, the benefits of filing a permit and knowing the limitations of your Type S Hydronics license

Equipment Cutaways will be available for the instructor to explain and for students to examine

TRAINING BOILER (what it can do, what it can simulate):

Fuel Pumps: High vacuum, cavitation of pumps, suction leaks, low operating pressure, poor atomization of fuel, effects of cold oil, poor fuel cutoff

Draft: High draft, low draft, uncontrolled draft, noise & smells from draft problems, importance of draft regulators, high stack temps

Nozzles: Poor atomization, soot, odors, cold oil, suction leaks, sizing

Combustion Zone: Chambers, chamberless firing, air leaks, low CO-2, vaporization, efficient combustion

Stack Temps: High Stack readings, low stack readings, condensation in flue gases, effects of condensation

Ignition: Poor starts, plugged nozzles, smooth starts, pre-ignition, intermittent and interrupted ignition, carbon bridging of electrodes

INSTRUCTOR: Steve Goodrich. 30 years of experience;

Installation, service and repair of heating equipment
 Managing of Service Departments and Training of Personnel
 Customer Communications, explaining service, updating or replacing heating equipment
 Founder of Quality Plumbing & Heating and Kelly Fuels, both of Bennington, Vermont
 Vermont licensed Master Plumber
 Vermont Licensed Type S Journeyman electrician

Vermont licensed oil heat technicians
 Massachusetts licensed journeyman plumber, oil burner technician
 PMAA Certified oil heat technician
 Past President of Vermont PHCC
 Past Instructor to Vermont Apprenticeship Program
 In addition to the day to day management of his companies, still very active in the service departments; taking calls, serving equipment, and continuing education.

Cancellation: VFDA reserves the right to cancel any and all seminars for lack of registrations, and pre-registered students will be notified using the contact information provided on the completed registration form. Firms that prepaid for cancelled seminars will receive a full refund.

Certificates suitable for framing will be given to all students completing all requirements of this seminar.
